GETTING STARTED

1. Find the "My Job" card in the black Jobs Deck and shuffle it with 10 other Jobs.
2. Shuffle and place 5 more Jobs on top of the first pile, for a total of 16 Jobs.
3. Shuffle the green Qualifications Deck and place 10 Qualifications face-up on the table.
4. Choose one player to start as the Employer.

TAKING YOUR TURN

1. **Deal 4 green Qualifications to each player.** These are private.
2. **Reveal the top Job.** If the card reads "My Job", this is the last round.
3. Let each player **build their resumé**—you may want to set a time limit for this phase.
   - Everyone builds their resumé at the same time.
   - You can replace face-up Qualifications with cards from your hand.
   - When everyone is finished or time has run out, move onto the next step.
4. Let each player **apply for the job**, starting with the player to the your left. They will explain what makes them the best candidate.
5. **Hire the best candidate.**
   - "Best candidate" means whatever you it to mean!
   - If you cannot decide, deal every player who has a chance 2 more green Qualifications. They must each use 1 of these cards to convince you.
6. The player to your left is the Employer for the next round.

TIPS

- Employers decide what the most important criteria are—**sometimes the funniest interview wins!**
- **Be creative** with your Qualifications!
- Pay attention and swap Qualifications quickly!
- Replace face-up Qualifications every few rounds.
- Re-use discarded Qualifications if you run out.
