PART B: Finding research about insect stressors/pests

1. Identify keywords by doing background research.
   a. What insect stressor(s) or pest and crop are you researching?

   Crop: ______________________________________________________________

   Insect: ____________________________________________________________

   b. Identify keywords.

   AND
   AND
   AND

   c. Any other keywords and synonyms?

   ____________________________________________
   ____________________________________________
   ____________________________________________

2. Go to the BI230 library guide. Click on Journals & eResources, and pick a database to search using the keywords identified.

   Hint: You may have to try several different combinations of keywords until you find something relevant.

   a. What database did you choose?

   ______________________________________________________________

b. How did you refine your search results (i.e. by year, by publication title, by peer-reviewed, by adding another keyword, etc.)?

______________________________________________________________________

3. What did you find? Describe at least one source:

Article Title: ____________________________________________________________

______________________________________________________________________

Author(s): _____________________________________________________________

______________________________________________________________________

Publication Title: _____________________________________________________

______________________________________________________________________

Year/Volume/Issue: ____________________________________________________

______________________________________________________________________

Page numbers: _________________________________________________________

4. Email yourself the articles and citation in APA (hint: use folder or email icon).

5. What is the APA Citation for the article?

______________________________________________________________________

______________________________________________________________________

______________________________________________________________________

______________________________________________________________________

______________________________________________________________________

______________________________________________________________________
